NO. 10 FORT ST.

SANITATION OF CITY

FOR MONTH OF JUNE

PROGRESS REPORTED IN SEWER CONNECTIONS AND MAKING TRIBUTARIES.

The City Sanitary Officer Indicates Where Sewers Are Badly Needed—Many Nuisances Abated—Gradual Elimination of Cesspools.

Following is the report of City Sanitary Officer Tracy for June, 1901, made to Dr. J. S. B. Pratt, Executive Officer Board of Health:

Number of building applications received, 51.

Number of building applications approved, 35.

Number of building applications disapproved, 0.

Number of building applications held by Survey Department, 16.

Number of building applications of previous months approved, 12.

Number of building applications of previous months disapproved, 0.

Number of building applications withdrawn, 0.

One application held by this office will be approved as soon as the necessary filling is finished; the other has not been investigated.

Cesspools located during the month, 19.

Since the opening of the public sewer no cesspools have been dug when sewer connections were possible, and cesspools have been demolished and filled as buildings were connected.

Buildings altered or moved to conform to the sanitary regulations, 14.

Examinations of lots before, during and after building, 149.

Examinations of premises for sanitary reasons, 346.

Certifications for hotel, lodging-house or restaurant licenses applied for, 27.

Certificates issued on these applications, 13.

Certificates withheld until sanitary work is done, 11.

Certificates issued on application of previous months, 7.

Certificates of previous months held for sanitary work, 13.

Number of adults which can by law be lodged in these buildings licensed, 1022.

Four formal complaints have been investigated and the nuisances have been or are being removed.

Sixteen 48 hour notices have been served and all save two have accomplished their purpose without prosecution. The two referred to have not yet expired.

Five builders without permits have been ordered to obtain permits and have done so.

A special report on the condition of Kewalo and causes leading up to the same was made on June 27.

I am glad to be able to report that the Public Works Department has filled the two condemned ponds on Queen street near South and is also doing away with the old closets just mauka of the Morgue which were condemned by the Board.

For some time off and on since the government appropriation for sewer construction was exhausted I have been working to get a sewer laid from King street to Beretania street in Kamakela road, better known as Ala Lane.

By interviewing the adjacent property owners I got them to sign two agreements or contracts. The first with Vincent & Belser the sewer contractors, in which each property owner agreed to pay a certain stated amount proportional to his frontage for the construction of the sewer and laterals, and any additional sum which was necessary to bring the total to the government contract price for that particular piece of sewer, as for instance in case of striking rock or such unforeseen difficulties, was to be paid pro rata.

The second agreement was with the Public Works Department, stating the agreement with Vincent & Belser and agreeing to have the sewer built under supervision and control of the Public Works and to pay the regular government rates when connecting.

The Government furnishes the pipe, brick for manholes, and iron manhole covers free and this reduces the cost considerably.

The Ala sewer is now laid and in good working order and seven of the worst cesspools in the city are being filled.

At odd times I am working on a piece of sewer for Vineyard street from the Relief Camp No. 2 to Liliha street, but owing to the Kewalo matter have not accomplished much lately.

Sewers are badly needed on King street from Liliha street to Dowsett Lane; on Emma street; on College Walk from Vineyard street to King street; on River street from Beretania to Kukui; along Kukui to Fort street with sewers one block in either direction on Nuuanu street and on Fort street, thus draining the whole of that portion of town.

An extremely offensive ditch which I wish the Board would visit and condemn is at Liliha parallel to and just Waikiki of the Government Wash-houses. Formerly this ditch was necessary but now it is not, and the people in the vicinity dump garbage, etc., into it which the tide does not carry away, with the result that the ditch is a serious menace to public health.

The Pope's various jubilees have brought him gifts from the faithful all over the world of the estimated aggregate value of 150,000,000 of lire. Translated into dollars, these sums are, from an American standpoint, reduced to one-fifth. But taking into consideration the cost of living in the United States and Italy, the lire may be reckoned to be equal to three times its quoted exchange value.

A large sum of money is reported to have been raised in Ritzville and Spokane on forged warrants purporting to be Adams county school warrants.

The best at the LOWEST PRICES AT HOPPS.

Dining-room Chairs

In exclusive styles but not exclusive prices. Hard Wood. Hand Carved, Hard Polished. Cool, Cheap and Comfortable.

Choice Center Rugs

Rugs are decorative, cover worn spots, preserve polished floors from wear.

Upholstery

First-class workmanship. Moderate prices. Before selling favorite and perhaps valuable chairs and furniture for next to nothing it will pay you to submit them to us for an estimate.

Brass Fittings

For cornice poles and other fittings, an unusually large and elaborate collection.

Nerves of Weak Men

I have demonstrated the fact that weakness of men, the result of early or later indiscretions, such as Drunkenness, Lame Back, Varicocele, etc., will not yield to a stimulating treatment. This accounts for the fact that drugs never cure. The medicines given for these troubles, essentially poisons, are intended only to stimulate. Continuous stimulation must result in harm. Thousands of patients have said to me: "Doctor, when I took this or that medicine I felt better in an hour, but after a month my weakness returned, and I was worse off than ever." "Better in an hour" means a powerful stimulant—means a wrecked constitution.

Electricity Is Strength!

[Trade Mark.]

That's what you want, strength, not stimulation. Electricity will never cure in a day; it does not cure in a week. It takes two months, it may take three, but the results are there to stay. I am the inventor and introducer of the famous Dr. Sanden Electric Belt, with attachment for men. It embodies the best efforts of my 30 years as a specialist. Worn at night, it strengthens you when you sleep. Currents act upon the Liver, Kidneys, Stomach, Bladder, Prostate Gland and all weakened parts. It weighs but five ounces. Currents instantly felt.

Free Book and Free Consultation.

Consult me free of charge, or write for free book, "Health in Nature," which explains all, sent in plain, sealed envelope.
